Subject Food web modeling

Duwamish Reviewers:

Here's an update on the Duwamish food web modeling effort:

LDWG will provide their first food web modeling deliverable on September 9. Comments will be due to EPA on Sept 30. This memorandum will cover the objectives of the food web modeling effort, the conceptual model, and selection and rationale for the proposed model.

We propose to meet with interested stakeholders **October 24, 12:30 - 2:30 at EPA** (after the quarterly stakeholder meeting) to discuss the food web modeling effort and your comments on the first deliverable. Both LDWG and the agencies would be present at the meeting. Please let me know if 1) you are interested in attending but can't make it at that time, or 2) you are planning to come.

Thanks and feel free to give me a call if you have any questions.
